SUBJECT INDEX TO VOLUME XX

ABDOMINAL pregnancy, An old and infected, with extension of the long bones into the bladder and into the bowel, 261
Abnormal development of the female genitalia, Three cases of, tr., 491
Abortion and labor by use of placental extracts, Experiments in the production of, 292; Serological findings in 100 cases, bacteriological findings in 50 cases, and a résumé of 679 cases of, at the Michael Reese Hospital, 537
Abscess, A case of temporosphenoidal, discovered by exploration through multiple small incisions in the dura, drained and cured, with remarks on the technique of operation from the standpoint of the otologist, 718
Access to the deeper orbit, 577
Acidity, Alkalescence, anæsthesia; a theory of anæsthesia, 680
Address: The wisdom of the past, a prophecy of the future, 277
Adenocarcinoma of the uterus, Complete removal of, by exploratory curettage; with report of three cases, 325
Adenomyoma of the rectovaginal septum, A further case of, 263
Adhesion, An intragastric, 455
Air embolus, The fallacy of, as a cause of death in obstetrical and surgical cases, cor., 498
Alexander operation, A modification of the, through the Pfannenstiel incision permitting inspection of the appendages and the appendix and united with a temporary suspension of the uterus, 599
Alkalescence, acidity, anæsthesia; a theory of anæsthesia, 680
American Ambulance, Symposium on military surgery at, Neuilly-sur-Seine, France, 708
Ammonia nitrogen in toxæmia of pregnancy and eclampsia, Total and, based upon the study of twenty cases of eclampsia and ten of preëclamptic toxæmia, tr., 375
Anæsthesia, A series of abdominal cæsarean sections performed under local, 221; Prostatectomy under local, 477; Ether-oil colonic; a report of thirty-six head and neck operations with special reference to ten thyroidectomies, 553; Obstetrical, tr., 623; Alkalescence, acidity; a theory of anæsthesia, 680
Anastomosis, A new method of lateral (side-to-side) intestinal, 225; The futility of arteriovenous, in the treatment of impending gangrene of the lower extremity, 381; of the axillary artery, End-to-end, 447
Anuria due to unilateral calculous obstruction, 526
Anus and rectum, Congenital defects of the, 579
Appendices, A series of filiform, 78
Appendicitis, Suppurative; post-operative hæmorrhage, cor., 101
Appendix, A case of submucous fibroid and a case of ruptured, in fifth month of pregnancy, tr., 371
Arteriovenous anastomosis, The futility of, in the treatment of impending gangrene of the lower extremity, 381
Arthritis, Pathology and treatment of acute infectious (metastatic), with description of J. B. Murphy's formalin and glycerin injection method, 198; of the joints of the hand following Colles' fracture, 450
Axillary artery, End-to-end anastomosis of the, 447

BABIES, Care and feeding of incubator, 234; tr., 248
Bacteriological findings in 50 cases, Serological findings in 100 cases, and a résumé of 679 cases of abortion at the Michael Reese Hospital, 537
Bacteriology of vascular infections, tr., 496
Bed, A practical obstetrical, 488
Bichloride poisoning, Successful treatment of a, case by hydraulic irrigation through cæcostomy operation, 350
Bladders, A study of twenty-five tabetic, 176
Blood transfusion, The simplicity of, by means of the Kimpton-Brown tube, 737
Boiling water injections into the thyroid gland for hyperthyroidism, 1; tr., 103
Bone work, Description of an electric motor for use in, 360; Giant-cell tumor of, 427; Periosteal regeneration of, 547; transplantation, Some observations on, 631; surgery, Cases illustrating, tr., 743; resorption, Origin and fate of osteoclasts in relation to, tr., 746; Sarcoma of, tr., 746
Bone-cysts, On benign, 570; Multiple, tr., 745
Breast, Cancer of the, 72
Broad ligaments, The use of the, in operations for relief of cystocele, cor., 741
Butterfly retractor in operations on the gall-ducts, 224
Button suture in anterior colporrhaphy, 616

CÆCOSTOMY operation, Successful treatment of a bichloride poisoning case by hydraulic irrigation through, 350
Cæsarean sections, A series of abdominal, performed under local anæsthesia, 221; tr., 245; Extraperitoneal; with a report of two cases, 354; Abdominal, under local anæsthesia, tr., 622
Calcified lymph-gland producing symptoms somewhat suggestive of gall-stones, 260
Calculi, Ureteral; special means of diagnosis and newer methods of intravesical treatment, 515
Calculous obstruction, Anuria due to unilateral, 526
Cancer of the breast, 72; of the prostate, 274; of the uterus, Contribution to the cure of, by curetting for diagnosis, 313; Primary results of radium treatment in uterine and rectal, with a report of twenty-three cases, 363
Caput obstipum, Bilateral congenital, 74
Carcinoma, Further experience with resection of the œsophagus for, 162; uteri, Preliminary report on the use of the Percy cautery in, with especial reference to its use as a forerunner to the Wertheim operation, 558
Carotid body, Tumor of the, 484
Cautery, Preliminary report on the use of the Percy, in carcinoma uteri, with especial reference to its use as a forerunner in the Wertheim operation, 558
Cerebrospinal meningitis, Treatment of purulent streptococcic, 240
Cervix, Protrusion of the, beyond the vulva in a full-term pregnant woman, tr., 246
Chicago Gynecological Society, tr., 244, 371, 489, 622
Chicago Pathological Society, tr., 495
Chicago Surgical Society, tr., 102, 495, 619, 742
Child of three years, Sarcoma of both ovaries in a, 419
Children, Goiter in, 35; tr., 103

Cholelithiasis, intussusception, tr., 621
Chondro-osteoma, Multiple, tr., 619
Chorio-epithelioma malignum, A case of, complicating a two-months' pregnancy and a degenerated uterine fibroma, 405
Cleft-palate, Surgery of the, 85; operations, The principles which govern the ultimate results of harelip and, 87; surgery, Factors of safety in, 91; On the treatment of, 95; operations, The late results of, 98
Club-foot, Wire splint in the early treatment of congenital, 233
Colles' fracture, Arthritis of the joints of the hand following, 450
Colonic anæsthesia, Ether-oil; a report of thirty-six head and neck operations; with special reference to ten thyroidectomies, 553
Colporrhaphy, The button suture in anterior, 616
Commandments, Ten, for the military surgeon, 717
Clavicle, Complete dislocation of the inner end of the, 470
Congenital defects of the anus and rectum, 579
Contraction, Treatment of the second degree of pelvic, 158
Cranial surgery, A hæmostatic safety pin for use in, 482
Craniopagus, sympodia, and acephalus, Some rare fœtal teratisms, with illustrative cases, 342
Curettage, Complete removal of adenocarcinoma of the uterus by exploratory; with report of three cases, 325
Curetting for diagnosis, Contribution to the cure of cancer of the uterus by, 313
Cystadenoma, Three cases of papillary, tr., 490
Cystic and common ducts, Perforation at the juncture of; primary suture, recovery, 552
Cystitis, Case of pseudodiphtheritic, tr., 372
Cystocele, The use of the broad ligaments in operations for relief of, cor., 741
Cyst, Bilateral dermoid, tr., 246; Removal of a large tuberculous, of the mesentery of the jejunum, together with the corresponding segment of the bowel; recovery; later death, apparently from tuberculous meningitis, 266; On benign bone, 570; Pancreatic, with report of a case, 688; Multiple bone, tr., 745

DERMOIDS of the kidney, 219; cyst, Bilateral, tr., 246 Diagnosis, Unusual cases illustrating points in, and treatment, 260
Diphtheroid bacilli, the association of, with various disease conditions; Local infection due to intravascular dissemination of bacteria, 403
Dislocation of the semilunar bone; with a report of eight cases, 60; Complete, of the inner end of the clavicle, 470
Displacements of the uterus, Intra-abdominal dynamics and mechanical principles involved in the cause of backward and downward, 45; of the uterus, Principles and practice in the surgical treatment of retro-, 610
Drainage, A simple method of establishing vaginal, 487; tubing, Oil-impregnated, 617
Ducts, Perforation at the juncture of cystic and common; primary suture, recovery, 552
Dural defects, Transplantation of fascia lata to replace, tr., 102
Dynamics, Intra-abdominal, and mechanical principles involved in the cause of backward and downward displacements of the uterus, 45

ECLAMPSIA, Total and ammonia nitrogen in toxæmia of pregnancy and, based upon the study of twenty cases of eclampsia and ten of preëclamptic toxæmia, tr., 375
Efficiency, A plea for higher hospital, and standardization, 705
Elbow, The end-results of treatment of one hundred cases of fracture of the; immobilization in hyperflexion combined with early passive movements and massage, 295
Electric motor, Description of an, for use in bone work, 360
Elephantiasis of both lower extremities, tr., 492
Embolism, Thrombosis and, 457; Experimental observations on thrombosis and, tr., 495
Embolus, The fallacy of air, as a casue of death in obstetrical and surgical cases, cor., 498
Embryo, On the occurrence of a nine-millimeter human, in the margin of a full-term placenta, 561; tr., 627
Empyema of the thorax; a critical study of 299 cases of acute empyema of the thorax, treated at Mount Sinai Hospital, New York, in the last ten years, 501; of the thorax; a critical study of 82 cases of chronic empyema sinus of the chest, treated at Mount Sinai Hospital, New York, in the period of ten years, from 1903 to 1913, 647
End-to-end anastomosis of the axillary artery, 447
Ether-oil colonic anæsthesia; a report of thirty-six head and neck operations; with special reference to ten thyroidectomies, 553
Extramembranous development of the fœtus, tr., 244
Extraperitoneal cæsarean section; with a report of two cases, 354

FASCIA lata, Transplantation of, to replace dural defects, tr., 102
Feet, Weak, 213
Fibroid, The radium treatment of, tumors, 271; A case of submucous, and a case of ruptured appendix in fifth month of pregnancy, tr., 371; Ovarian; with report of six cases, 692
Fibroma, A case of chorio-epithelioma malignum complicating a two-months' pregnancy and a degenerated uterine, 405
Fibrosclerosis of the penis, A report of three cases of, treated by röntgenization, without improvement, 41
Field consultant, Military surgery from the viewpoint of a, 715
Field inspector, Practical problems from the viewpoint of a, 713
Field service, Scientific control of, 711
Filiform appendices, A series of, 78
Fœtal teratisms, Some rare, with illustrative cases, sympodia, craniopagus, and acephalus, 342; tr., 372
Fœtus, Extramembranous development of the, tr., 244
Formalin and glycerin injection method, Pathology and treatment of acute infectious (metastatic) arthritis, with a description of J. B. Murphy's, 198
Fracture of the spine of the tibia, 179; of the elbow; The end-results of treatment in one hundred cases of, immobilization in hyperflexion combined with early passive movements and massage, 295; Operative treatment of, 357; The repair of, an experimental study, one to six weeks, 661.

GALL-BLADDER, A modified incision for approaching the, 83; tr., 102; cor., 369; infections, their treatment from a surgical standpoint, 360
Gall-ducts, The butterfly retractor in operations on the, 224
Gall-stones, A calcified lymph-gland producing symptoms somewhat suggestive of, 260; during the course of 1,066 abdominal sections for pelvic disease, 284
Gangrene of the lower extremity, The futility of arterio-venous anastamosis in the treatment of impending, 381
Gastrectomy, Pylorectomy and partial, or excision of the ulcer-bearing area in the treatment of gastric ulcer, 25

Gastric ulcer, Pylorectomy and partial gastrectomy or excision of the ulcer-bearing area in the treatment of, 25; mucous membrane, Experiments on the transplantation of, 53; adhesion, An intra-, 455
Genitalia, Three cases of abnormal development of the female, tr., 491
Genito-urinary tuberculosis, An unusual case of, 239
Giant-cell tumor of the bone, 427
Gilliam operation for deviations of the uterus, 608
Goiter in children, 35; tr., 103
Grafting, Reconstruction and repair of abdominal organs with intestinal, 668
Gynecology, X-ray diagnosis in, with the aid of intra-uterine collargol injection, 435

HÆMANGIO-ENDOTHELIO-BLASTOMA of the stomach, 443
Hæmatoma following labor, An unusual, 411
Hæmorrhage, post-operative, Suppurative appendicitis, cor., 101; Controlling, after suprapubic prostatectomy, cor., 101
Hæmostatic safety pin for use in cranial surgery, 482
Hernia, Operation for the radical cure of an umbilical, in a patient weighing 464 pounds, 265; Massive umbilical and ventral, 700
Hospital efficiency, A plea for higher, and standardization, 705
Hyperthyroidism, Boiling water injections into the thyroid gland for, 1; tr., 103
Hysterectomy, The temperature range after supravaginal, for myofibromata, 181

ILEOCÆCAL reinvagination, Intussusception; new points in the etiology and a new operation for the prevention of, 177
Infections, Treatment of acute, 211; Gall-bladder, their treatment from a surgical standpoint, 360; Local, due to intravascular dissemination of bacteria; the association of diphtheroid bacilli with various disease conditions, 403; Bacteriology of vascular, tr., 496
Infectious (metastatic) arthritis, Pathology and treatment of acute; with a description of J. B. Murphy's formalin and glycerin injection method, 198
Incision, A modified, for approaching the gall-bladder, 83; tr., 102; cor., 369
Incubator babies, Care and feeding of, 234; tr., 248
Incontinence, Urinary, in women, 240
Intestinal stasis, 154; anastomosis, A new method of lateral (side-to-side), 225; obstruction, Points in the surgical treatment of acute, 268; polyposis, 412; obstruction, The excessive mortality of high, 425; grafting, Reconstruction and repair of abdominal organs with, 668
Intra-uterine collargol injection, X-ray diagnosis in gynecology with the aid of, 435
Intravascular dissemination of bacteria, Local infection due to; the association of diphtheroid bacilli with various disease conditions, 403
Intussusception; new points in the etiology and a new operation for the prevention of ileocæcal reinvagination, 177; Cholelithiasis, tr., 621

JOINTS of the hand, Arthritis of the, following Colles' fracture, 450

KIDNEY, Dermoids of the, 219
Killing, Science has perfected the art of, why not of saving, 710
Kimpton-Brown tube, The simplicity of blood transfusion by means of the, 737
Kinetic theory, of peritonitis, 415

LABOR by use of placental extracts, Experiments in the production of abortion and, 292; An unusual hæmatoma following, 411
Lakeside unit of Western Reserve University, Under auspices of the, 708
Local anæsthesia, A series of abdominal cæsarean sections performed under, 221; tr., 245; tr., 622; anæsthesia, Prostatectomy under, 477
Lymph-gland, A calcified, producing symptoms somewhat suggestive of gall-stones, 260

MANDIBLE, Resection of the bone for protrusion of the, 735
Mediastinal thyroid, A case of, removed by transsternal mediastinotomy, 589
Mediastinum, Tumors of the, 542
Megacolon, Acquired; report of a case, 685
Meningitis, Treatment of purulent streptococcic cerebrospinal, 240
Mesentery of the jejunum, Removal of a large tuberculous cyst of the, together with the corresponding segment of bowel, recovery, later death, apparently from tuberculous meningitis, 266
Military surgeon, Ten commandments for the, 717
Military surgery, Symposium on, at American Ambulance, Neuilly-sur-Seine, France, 708; from the viewpoint of a field consultant, 715
Molecular vibration, Destruction of the spinal cord by, 486
Mortality, The excessive, of high intestinal obstruction, 425
Motor, Description of an electric, for use in bone work, 360
Mucous membrane, Experiments in the transplantation of, 53
Myofibromata, The temperature range after supravaginal hysterectomy for, 181

NATION, The vivisection of a, 708
Nephrectomy during pregnancy, 657
Nerve-blocking, 193
Nerve, Sarcoma of the sciatic, 495

OBSTETRICAL bed, A practical, 488; and surgical cases, The fallacy of air embolus as a cause of death in, cor., 498; anæsthesia, tr., 623
Obstetric forceps, The Tarnier axis traction rods applied to the Simpson, 734
Obstruction, Points in the surgical treatment of acute intestinal, 268; The excessive mortality of high intestinal, 425
Œsophagus, Further experience with resection of the, for carcinoma, 162
Oil-impregnated drainage tubing, 617
Operations on Steno's duct, New technique for, 593
Operative treatment of fractures, 357
Orbit, Access to the deeper, 577
Organs, Reconstruction and repair of abdominal, with intestinal grafting, 668
Orthopedic technique, 729
Os calcis, Subperiosteal osteotomy of the, for pes calcaneus; report of two cases, 231
Osteoclasts, The origin and fate of the, 678; Origin and fate of the, in relation to bone resorption, tr., 746
Osteomyelitis, The diagnosis and treatment of, 6; The treatment of; observations on ninety-seven consecutive cases, with the end-results, 129
Osteotomy, Subperiosteal, of the os calcis for pes calcaneus; report of two cases, 231
Ovarian tumors in pregnancy, with report of a case of solid tumor, 319; tr., 373; fibroids, 692
Ovaries, Transplantation of, 30; Sarcoma of both, in a child of three years, 419

PANCREATIC cyst; with report of a case, 688
Pancreatitis, Acute hæmorrhagic; with a clinical report of eight cases, 204
Paraplegia, A case of spastic, and birth, the paraplegia subsequently operated and cured, tr., 489
Pelvic contraction, The treatment of the second degree of, 158; relaxation, Uterine prolapse with associated, 253; disease, Gall-stones during the course of 1,066 abdominal sections for, 284
Penis, A report of three cases of fibrosclerosis of the, treated by röntgenization, without improvement, 41
Percy cautery, Preliminary report on the use of the, in carcinoma uteri, with especial reference to its use as a forerunner to the Wertheim operation, 558
Perforation at the juncture of cystic and common ducts; primary suture, recovery, 552
Periosteal regeneration of bone, 547
Peritonitis, The kinetic theory of, 415
Pes calcaneous; Subperiosteal osteotomy of the os calcis for, report of two cases, 231
Pfannenstiel incision, A modification of the Alexander operation through the, permitting inspection of the appendages and the appendix and united with a temporary suspension of the uterus, 599
